Backend Development: Spring Boot, Java, PHP, REST APIs, API Integration, CRUD Operations

CMS and Web: WordPress, Web Application Development, Website Maintenance

Tools and Version Control: Git, GitHub, VS Code, Postman, AI-Powered Development Tools

Engineering Practices: Debugging, SDLC, Agile Methodology

Professional Skills: Team Collaboration, Communication, Problem Solving, Independent Learning, Time Management, Attention to Detail

EXPERIENCE

Software Engineer Intern | Infostrategy Technologies LLP | Aurangabad, Maharashtra | Jan 2026 – May 2026

- Built and maintained FreeBioData (freebiodata.online), a public online biodata generator, over 5 months.
- Designed and built 30+ responsive templates and page layouts, ensuring consistent behavior across devices.
- Diagnosed and resolved 20 debugging tasks, improving application stability and user experience.

IT Intern | Flyer Renewable Energy Infrastructure Pvt. Ltd. | Aurangabad, Maharashtra | Jan 2026 – Mar 2026

- Managed and administered the company WordPress (CMS) website throughout a 3-month internship.
- Resolved website bugs and updated content across 6 pages, keeping the site accurate and current.

Web Development Intern | Infostrategy Technologies LLP | Aurangabad, Maharashtra | Nov 2024 – Dec 2024

- Independently developed SnehRishta (snehrishta.com), a live matrimonial website, over 2 months.
- Enhanced site functionality and improved front-end user interface features.
- Analyzed and troubleshooted 10 website issues, improving usability and reliability.

PROJECTS

Get Inn – Tech That Feeds and Fuels

- Collaborated with a team of 3 to engineer a web platform for restaurant management and food waste tracking.
- Delivered 3 core features: restaurant registration, waste tracking, and collection requests.
- Connected 2 user groups, restaurants and biogas operators, to turn food waste into renewable energy.

Recipe Recommendation System

- Independently designed and coded a web application that recommends recipes based on a user's ingredients.
- Integrated 3 features: recipe search, user preferences, and recipe management.

EDUCATION
